PROFESSIONAL SUMMARY

Senior Full-Stack Laravel/PHP Developer with 8+ years of experience building production web applications using Laravel, PHP, Vue.js, React, MySQL, and REST APIs. Available now for full-time remote employment and freelance/contract engagements. Most recent role: Senior Web Application Developer at Paperly (Perth, Australia, remote, July 2022 – August 2026), delivering school administration software used daily by thousands of teachers and parents. Strong background in SaaS, eCommerce, on-demand delivery, payment integrations (Stripe, PayPal, BPOINT), Redis, geolocation, workflow automation, Agile delivery, mentoring, and client communication.

CORE SKILLS

Backend: Laravel, PHP 8+, REST APIs, MySQL, Redis, Node.js, Sails.js, CodeIgniter, Socket.io, JWT, OAuth, multi-tenant architecture

Frontend: Vue.js, Vuex, Composition API, React.js, Redux, JavaScript, TypeScript, HTML5, CSS3, Sass, Tailwind CSS, Bootstrap

Cloud and tools: Git, GitHub, Postman, JIRA, Firebase, Linux, cPanel, CI/CD

Payments and integrations: Stripe, PayPal, BPOINT, custom payment APIs, webhooks, shipping APIs, geolocation

Mobile: React Native (iOS and Android)

Practices: Agile, sprint planning, code reviews, mentoring, requirements analysis, client communication

WORK EXPERIENCE

Senior Web Application Developer

Paperly | Perth, Australia (Remote) | July 2022 – August 2026

- Developed and maintained school administration modules used daily by thousands of teachers and parents across Australia.
- Built features for excursion management, sports coordination, music lessons, parent-teacher interviews, and assessment calendars.
- Implemented dynamic form builders, workflow automation, multi-school integrations, geolocation, and student permission management.
- Designed REST APIs and MySQL schemas; integrated third-party services in Agile production releases.
- Primary stack: Laravel, Vue.js, MySQL, REST APIs.

Web Application Developer

Logistic Infotech Pvt Ltd | Rajkot, India | July 2017 – June 2022

- Delivered 200+ full-stack client projects worldwide across eCommerce, SaaS, education, restaurant, and booking domains.

- Built Laravel backends with Vue.js and React.js frontends, including admin dashboards and role-based access control.
- Integrated Stripe, PayPal, BPOINT, and custom payment APIs into production billing flows.
- Developed REST APIs and real-time features using Socket.io and Firebase for chat, notifications, and live tracking.
- Mentored junior developers; handled client requirements, estimates, and Agile sprint planning.

PROJECTS

Paperly — School Management Platform

Senior Developer | 2022 – 2026 | Australia | Laravel, Vue.js, MySQL, REST API, Geolocation

- School administration and extracurricular management at scale for Australian primary and secondary schools.

Megathy — On-Demand Grocery Delivery

Full Stack Developer | Multi-vendor | Saudi Arabia | Laravel, React Native, Vue.js, MySQL, Firebase, Payments

- Built Laravel backend, admin panel, and order management for Eastern Saudi Arabia grocery delivery.
- Multi-vendor catalog, real-time tracking, scheduled slots, multi-payment, discounts, loyalty, and live chat.
- Delivered across web and React Native mobile (iOS and Android).

Zimble — Customer Feedback Platform

Full Stack Developer | Laravel, CodeIgniter, AJAX

- Private real-time customer feedback and business performance monitoring with charts, trends, alerts, and benchmarking.
- Structured insights for owners without public social media exposure.

Vector Rideshare — University Carpooling

React Native Developer | React Native, Firebase, REST API | iOS & Android

- Campus carpooling with .edu verification, trip create/join, advance scheduling, and real-time chat.
- Published on the App Store and Google Play.

Exception Tracker — Personal Project

Error monitoring and logging application | In progress | Laravel, Vue.js, MySQL, REST API

- Built a full-stack exception tracking tool to capture, group, and triage application errors.
- Features include searchable history, severity levels, and a production debugging dashboard.

Resident App — Personal Project

Residential community platform | In progress | Laravel, Vue.js, MySQL, REST API

- Built a resident-facing housing community application for notices, maintenance requests, member profiles, and admin workflows.

EDUCATION

Bachelor of Engineering — Computer Science and Engineering

Gujarat Technological University | Shri Labhubhai Trivedi Institute of Engineering and Technology, Rajkot | July 2013 – May 2017

LANGUAGES

English — Professional | Hindi — Professional | Gujarati — Native
